VIVA McDONALD
of San Francisco, Calif.
CONSISTENT WINNER IN
PHOTOGRAPHIC CONTESTS

"The pictures were made with an Argus," said Viva McDonald, in her comments regarding a recent prize award. "I have won many prizes with pictures made with it."

"Some of my pictures are prize-winners and some are not, but all speak well for my Argus . . . they are still winning prizes . . . have had no trouble making 16 x 20 inch blow-ups."

A real camera fan, with a completely equipped darkroom, Mrs. McDonald is also the proud grandmother of three husky children, and finds recreation and profit in making prize-winning enlargements from her Argus negatives.
